FOR IMMEDIATE RELEASE

ST. LOUIS, MO October 5, 2022 -- The **Decorative Concrete Council (DCC)**, a specialty council of the **American Society of Concrete Contractors (ASCC)**, St. Louis, Mo., has announced the winners of its 14th annual **Decorative Concrete International Awards** competition. The winners were recognized at ASCC's Annual Conference, September 29, 2022, in Cleveland, OH.

Colorado Hardscapes, Greenwood Village, CO won the **WOW! Award**, best overall project, for the **USAFA Air Gardens**, a restoration project to return the Air Force Academy's Air Gardens, what had been the focal point of the cadet parade grounds, to its former glory.

The area is a 600-foot grid of concrete, landscaping, and pools. After 46 years laying dormant, Colorado Hardscapes was tasked with replacing the Air Garden's walkways, bridges, and pool copings, and refurbishing the pools themselves.

35,175 SF of specialty concrete was developed with white cement and white aggregate to compliment the white marble bands, and to contrast with the pools finished with charcoal plaster.

Over a mile of exposed finished vertical edges of copings and walkways, and 15 bridges, required innovative forming and finishing techniques. The layout throughout the Academy grounds is at multiples of seven, resulting in having to sawcut all paving into 21-inch "tiles."
